Dear Community Member,

It is our pleasure to share this Community Benefit Summary with you.

Traditional health systems are focused on treating injury and disease. At Health First, we have a different vision of how an integrated value-based healthcare delivery network should perform for you. It is our belief that we should focus our efforts on proactively keeping you and your family healthy.

Of course, you can still depend on us to provide the highest quality care when you are sick, but we are also working diligently to prevent disease and improve your overall health and wellness. Through our health insurance plans, four hospitals, medical group, and outpatient & wellness services, Health First is committed to providing the facilities and programs our community needs for a healthier future.

This Community Benefit Summary shows how we are giving back to our communities. To view the full story, we encourage you to visit www.Health-First.org/cr2013 and watch our **2013 Community Report video**.

Making healthy choices to stay well is the best way we know to enjoy the time we have with our family and friends. On behalf of our board, associates, physicians, and volunteers, we thank you for choosing Health First for all of your health and wellness needs.

Respectfully yours,

 Jim Shaw
